### **Development Cup (Pairs Format)**

The Development Cup is a new format to create more opportunity for 'beginner' cricketers at clubs to play competitively at a similar standard. This will be played in the Pairs format to encourage participation throughout the competition with 8 or 10 players on each side. The Development Cup is to act as a gateway for clubs who aren't fulfilling fixtures due to; player numbers and opposition standards. It is also an opportunity for clubs who are trying to sustain a school's programme that need match opportunity as a tool to keep their junior membership engaged with the club.
